Vibra®-Probe™ 585

Pinpointer Metal Detector

True Pinpointing Technology

The Vibra-Probe 585 Pinpointer metal detector is like a miniature version of a primary detector. It has tip only detection, so you know precisely where the target is.

The Vibra-Probe communicates through vibration, incorporates Pulse Induction (PI) technology, and is fully automatic. The self-calibrating microprocessor-controlled circuitry requires no adjustment of any kind and it is waterproof to a depth of 100 feet.

No push button switches. The Vibra-Probe uses our unique tilt on & off technology, in addition to our traditional one-minute automatic-off battery saver.

The simple to use design, and modern electronics, make it easy to locate elusive targets in any environment including mud, dirt, grass, black sand, and even fresh or salt water.

The included belt holster makes it easy to carry, so it's always at the ready.

Product Features

Communicates with vibration
Signals with pulses of vibration when a target is located.

Pulse Induction (PI)
This technology allows hunting at the beach in salt water or in any type of soil, including black sand.

Detection depth stability
New advanced circuitry maintains the unit's detection depth ability throughout the life of the battery.

Target direction
The Vibra-Probe 585 detects at the tip only, not along the shaft, enabling precision target pinpointing.

Target distancing
The pulses of vibration will continue to increase in quantity as the tip gets closer to the target.

Automatic tuning
Microprocessor controlled design requires no adjustments.

Tilt on/off
Uses our easy tilt on/off system that eliminates the need for fragile push button switches.

Waterproof
Sealed design is submersible to a depth of 100 feet (30 meters).

Low battery indicator
Built in low battery sensor alerts you when the battery is low and needs replacing.

Easy battery installation
The 9-volt battery is quickly changed without tools by simply rotating the knob to access the compartment.

Solid construction
The rugged sealed construction and stainless steel hardware are built to last.

Holster
Includes belt mountable holster for easy carrying.

Vibra-Probe 585 Specifications

- **Detection Type:** Pulse Induction
- **Search Mode:** All metal
- **Communication:** Vibration
- **Tuning:** Automatic
- **Waterproof:** Submersible to 100 ft (30m)
- **Overall Length:** 14 inches (35 cm)
- **Coil Diameter:** 1 inch (2.5cm)
- **Weight:** 8 oz (227 grams)
- **Power Source:** One standard 9-volt
- **Warranty Period:** 1 year
- **Includes:** Battery & Holster
- **Origin:** Made in USA
