Vibra-Tector® 740™

Pulse Induction Metal Detector

Designed For Any Environment!

The Vibra-Tector 740 is our latest state-of-the-art handheld metal detector. It communicates to the user with pulses of vibration and bright LED light.

The unique sealed design is waterproof to a depth of 100 ft (30 m), and the self-calibrating microprocessor-controlled circuitry requires no adjustments of any kind.

The Vibra-Tector incorporates Pulse Induction (PI) technology. This allows hunting in any environment including grass, mud, dirt, sand, black sand, and fresh or salt water. The 4-inch coil, and overall compact size, make it perfect for travel. It's a great all around metal detector for snorkeling, diving or searching small areas.

Our detectors have no push button switches that can break. Instead, they feature our unique tilt on/off design that allows quick activation and unlimited detecting in any environment.

The Vibra-Tector 740 also includes a removable and adjustable wrist strap for added security.

Product Features

Communicates with vibration & light
Signals with pulses of vibration and flashes of bright white LED light.

Pulse Induction (PI)
For superior hunting in salt water and black sand.

Detection depth stability
New advanced circuitry maintains the unit's detection depth ability throughout the life of the battery.

Target distancing
The pulses of vibration and light will continue to increase in quantity as the coil gets closer to the target.

Automatic tuning
Microprocessor controlled design requires no adjustments.

Tilt on/off
Uses our easy tilt on/off system that eliminates the need for fragile push button switches.

Waterproof
Sealed design is submersible to a depth of 100 feet (30 meters).

Low battery indicator
Built in low battery sensor alerts you when the battery is low and needs replacing.

Easy battery installation
The 9-volt battery is quickly changed without tools by simply rotating the knob to access the compartment.

Compact design
The compact 4-inch coil, and small overall size, makes it easy to carry and fit in a small suitcase for travel.

Solid construction
The rugged sealed construction and stainless steel hardware are built to last.

Belt ring & wrist strap
Includes a belt ring to attach to any common belt clip as well as a wrist strap for added security.

Vibra-Tector 740 Specifications

- **Detection Type:** Pulse Induction
- **Search Mode:** All metal
- **Communication:** Vibration and Light
- **Tuning:** Automatic
- **Waterproof:** Submersible to 100 ft (30 m)
- **Overall Length:** 17 inches (43 cm)
- **Coil Diameter:** 4 inch (10 cm)
- **Weight:** 1 lb. (450 grams)
- **Power Source:** One standard 9-volt
- **Warranty Period:** 1 year
- **Includes:** Battery & Wrist strap
- **Origin:** Made in USA
